

# Raul Mendoza Projects

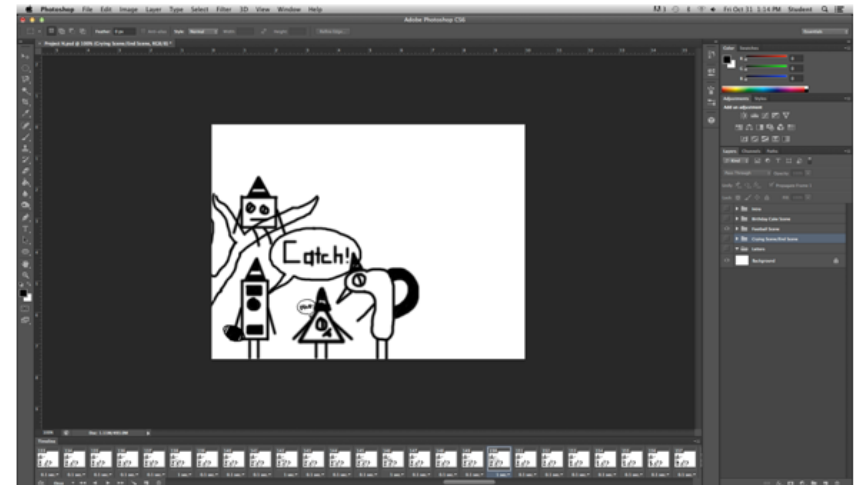

## Ted

**Ted is a interactive story about a young stickman named Ted. Who leads a pretty normal boring life. Until one day something happens. It's a pick your own path type of story. So far only one big decision is available. This project is being made in Flash Cs6, also using Photoshop Cs6 for a few pictures and designs. (Work in Progress)**

## Not So Happy Birthday

**This is a roughly 50 second long animation done entirely in Photoshop Cs6. I did it as a project for Mr. Perrin, and also as a final for Mr. Wilson. The story is about Triangle Guy, who is having a not so great birthday party.**
